Dr. Prathap C. Reddy

MD, FCCP, FICA, FRCS (Hony)

Founder-Chairman, Apollo Hospitals Group

A visionary who changed the lives of millions, Dr. Prathap C Reddy, Founder-Chairman of Apollo Hospitals, is fondly referred to as the "Architect of Modern Indian Healthcare" for his outstanding contributions to the country's healthcare system. A Cardiologist who firmly believes that healthy people make a healthy world, he established the Apollo Hospitals group in the year 1983, with a singular aim: to make high-quality healthcare accessible to people across geographic, social and economic borders. Today, Apollo Hospitals is not only India's largest corporate hospital chain, but also one of Asia's leading healthcare providers, with 70+ state-of-the-art hospitals and thousands of facilities including pharmacies, clinics and diagnostic centres that provide **Apollo-class healthcare for everyone.**

Dr. Prathap C Reddy was awarded the Padma Vibhushan, the second highest civilian award by the Government of India, to honour his great vision that changed the very dynamics of the private health sector in the country.

Apollo-Class Healthcare

Established in 1983, Apollo Hospitals is one of Asia's top integrated healthcare service providers and India's first and largest corporate hospital group, offering services ranging from primary to quaternary level medical care, laced with compassion. With 70+ hospitals, 7000+ expert doctors, 55,000+ support staff, 4200+ Apollo Pharmacies and thousands of primary care, poly clinics and diagnostic centres across 13 countries, Apollo touches the lives of millions of people every single day.

Apollo Hospitals, which was born from the belief that everyone deserves high-quality medical treatment, revolutionised the private health sector in India by making world-class healthcare accessible and affordable to people belonging to all sections of the society and in turn setting a new benchmark: **Apollo-class healthcare.**

Apollo Adlux Hospital: Bringing Apollo-Class Healthcare To Kerala

Kerala's first Apollo hospital and Apollo's 73rd hospital in India, Apollo Adlux Hospital is one of the most advanced tertiary multi-speciality hospitals in the state. A 300-bed facility replete with 34 super-speciality departments, Apollo Adlux Hospital combines the finest in technology and expertise to take forward the mission set by Apollo Hospitals four decades ago: to ensure **Apollo-class healthcare for everyone**, at an affordable cost.

Apollo Adlux Hospital has also been at the forefront of Kerala's battle against COVID-19 by functioning as a full-fledged frontline treatment centre during the first COVID-19 wave and a second-line treatment centre during the second wave. The first private hospital in Kerala to offer COVID-19 vaccination for people above 18 years as well as corporate institutions, Apollo Adlux tops the list of healthcare facilities in the state that administer vaccines, in terms of numbers.

Apollo Adlux Centres of Excellence
